

## JOLI Medispa Filler Packages

### *Why get filler at JOLI Medispa?*

Our filler techniques are natural and long lasting (up to 5 years), as we get to the root of the problem: loss of volume due to collagen, elastin, & aging weak skin cells. Unlike standard filler techniques utilizing only Hyaluronic Acid (HA) Filler (Juvederm Voluma, Restylane Lyft, etc.), JOLI Medispa's injectors treat both the cause and the symptoms associated with the natural aging process, which begins at age 25, and is approximately 5 mls of volume loss every 10 years after age 30. They create long lasting, natural anti-aging replacement via collagen & elastin production, utilizing specific & standardized combinations & placement of three or more of the following: Biostimulatory fillers (Radiesse, Sculptra), Platelet Rich Plasma (PRP), Platelet Rich Fibrin (PRF), Hyaluronic Acid Filler (Juvederm Voluma, Restylane Lyft, Versa), Silhouette Instalift (PLLA) Threads, or PDO Threads. A cannula filler technique is used for placement of the filler, thus there is very minimal risk of bruising.

In the case you didn't know, one of Jenny Berry's past lives as a NP was running Phase 1, first in human, clinical trials at MD Anderson Cancer Center. Thus, when we mean our services are based off of science and research, we mean it.

Volume Replacement, Contour, Anti-Aging Filler Packages	Procedure	Treats	Downtime	Cost	Additional Notes
	<b>The "Preventative Cheek" Technique</b> (must be <32 y/o)  Modalities: PRF, Radiesse, Combo of 3 HA Fillers	Soft Cheek Contour. Prevents smile lines and undereye symptoms of aging.	Possible swelling & tenderness for a few days. Low risk for bruising.		Must be less than 32 years old. No acceptations.
	<b>The "Cheek Contour" Technique</b> (must be <32 y/o)  Modalities: PRF Injection, Radiesse, Combo of 3 HA Fillers, Silhouette Instalift.	Cheek Sculpt & Contour. Prevents & treats early signs of aging & volume loss (undereyes, nasolabial fold lines). Silhouette Instalift used to create cheek sculpt.	Possible swelling & tenderness for up to 3 days. Low risk for bruising.		Must be less than 32 years old. No acceptations.
	<b>The "Maleficent Cheek" Technique</b> (27y/o + with symptom of undereyes or smile lines, but without jowls or marionette lines)  Modalities: PRF injection, Radiesse, Combo of 3 HA Fillers.	Re-contour and restore volume sby stimulating collagen & elastin production. This package is for someone without lower face symptoms of jowls or marionette lines. It is Preventative against lower face symptoms: jowls, nasolabial folds, & marionette lines.	Possible swelling & tenderness for up to 3 days. Low risk for bruising.		If age > 45 and anti-aging/volume replacement measures have not been in place up to this point, a second session approximatley 4-6 months later may be recommended based on your personal goals.
	<b>"Silhouette (2) Maleficent Cheek" Technique</b> (27 y/o+ with "mini Jowls" or that wants to create cheek contour & sculpt)  Modalities: PRF injection, Radiesse, Combo of 3 HA Fillers, Silhouette Instalift.	Includes benefits of "Maleficent Cheek" Package + Sihouette Instalift is used to lift nasolabial folds while also creating cheek contour & a collagen "barrier reef" prevenative against jowls & marionette lines.	Possible swelling & tenderness for up to 3 days. Low risk for bruising.		If age > 45 and anti-aging/volume replacement measures have not been in place up to this point, a second session with the "Maleficent Cheek" Package, approximatley 4-6 months later may be recommended based on your personal goal.
	<b>The "Silhouette (4) Maleficent Cheek" Technique</b> (27 y/o + with "mini jowls" & marionette lines)  Modalities: PRF injection, Radiesse, Combo of 3 HA Fillers, Sihouette Instalift	Includes benefits of "Silhouette (2) Maleficent Cheek" Package. This package includes 2 additional Instalift threads, and is for those that have more mature lower face symptoms of small jowl formation or marionette lines.	Possible swelling & tenderness for up to 3 days. Low risk for bruising.		If age > 45 and anti-aging/volume replacement measures have not been in place up to this point, a second session with the "Maleficent Cheek" Package, approximatley 4-6 months later may be recommended based on your personal goal
	<b>The "Maleficent Jawline" Technique</b>  Modalities:PRF Injection, Radiesse, combo of 2 hyaluronic acid fillers	Sculpt & contour the jawline. For those >38 years old: re-contour, restore volume loss from bone resorption, collagen & elastin. Prevent saggy neck.	Possible swelling & tenderness for up to 3 days. Moderate risk for bruising.		If the goal is a sharp sculpted jawline, up to 3 sessions, 4 months apart may be needed to build it.
	<b>The "Maleficent Jawline + Chin" Technique</b>	Re-contour & restore volume, collagen, & elastin of the jawline. Chin volume to bring the side profile closer to the golden ratio.	Possible swelling & tenderness for up to 3 days. Moderate risk		If the goal is a sharp sculpted jawline & golden

Modalities: PRF Injection, Radiesse, combo of 2 hyaluronic acid fillers.	Preventative against saggy neck skin.	for bruising under chin.		ratio side profile,, up to 3 sessions, 4 months apart may be needed to build it.
<b>The "Perfect Profile" Package (Lip + Chin)</b>  Modalities: Lips: Radiesse Lips. Chin: PRF Injection, Radiesse, combo of 2 hyaluronic acid fillers	The golden ratio of the profile notes that nose, lips, & chin should be in a perfect line down your face. This package is for those who want lip filler, but have a weak or recessed chin. This package brings proportion to the side profile & prevents the weak chin from creating the "duck lip" look.	Possible swelling, bruising & tenderness for up to a week. Moderate risk for bruising.		Depending on severity of recessed chin or chin structure and bone loss, 2-3 sessions may be needed to obtain golden ratio profile. If > 45 y/o & no history of lip volume replacement, a second session may be needed to obtain goal.
"The Chin" Package  Modalities: PRF injection, Radiesse, combo of 2 hyaluronic acid fillers.	Treats recessed or weak chin along with bringing proportion to the side profile & minimizing jowls/marrionette lines. Nose, lips, & chin should be in a straight	Possible swelling, bruising & tenderness for up to a week. Moderate risk for bruising.		Depending on severity of recessed chin or chin structure and bone loss, 2-3 sessions may be needed to obtain golden ratio profile.

## Fat Reduction, Skin Tightening & Brightening

### Fat Reduction, Skin Tightening & Brightening

Procedure	Treats	Downtime	Why JOLI Medispa?	Cost	Notes
<b>Vampire (PRP) Facial</b> Modalities: Platelet Rich Plasma Microneedling, Platelet Rich Fibrin Injection	Diminishes fine lines & wrinkles, brightens dull skin, increases collagen, diminishes scars, tightens skin, improves moisture retention.	1 day of redness & minimal swelling.	Microneedling with PRP stimulates up to 10x the collagen vs. microneedling alone. PRF injection stimulates collagen at a deeper level (up to \$1500 upcharge elsewhere)		A series of 3 facials 6 weeks apart is recommended for maximum benefit.
<b>E-Light Vampire Facial</b> Modalities: E-Light Laser (RF+IPL), PRP Microneedling, PRF injection	In addition to the benefits of a vampire facial, the addition of E-light enhances results by targeting hyperpigmentation, melasma, rosacea, & blood vessels while stimulating additional collagen with RF	Up to 3 days of redness and mild swelling "peppering" of pigmented areas of the skin.	We are the only practice on the Northshore combining these modalities.		A series of 3 every 6 weeks is recommended for maximal benefit. Depending on specific target of E-light, it may or may not be needed all 3 treatments.
<b>The "Crepey Skin Tightener" Package</b> Modalities: -Radiofrequency with PRP Microneedling, -PRF Injection - Hyperdiluted Radiesse.	Treats loose, saggy, & crepey skin anywhere on the body (face, neck, stomach, etc.). Tightens skin by restoring collagen & elastin to the tissue via 5 different stimulatory modalities. Tightens skin, restores collagen & elastin, fills in wrinkles, shrinks pores. Most common areas are: Face, neck,	Sandpaper texture to skin for up to a week. Minimal redness & swelling for up to 3 days.	This technique is only available at JOLI Medispa. It uses 4 different modalities that have been proven to tighten skin.		Up to 3 sessions, 6 weeks apart may be needed to obtain maximum benefit.
<b>The ""Skin Firming"" Package</b> Modalities: -Radiofrequency with PRP Microneedling, -PRF injection.	Treats skin that is not crepey, but is loose and showing signs of collagen & elastin loss. Decreases skin age by replenishing collagen & elastin, improves skin texture, reduces pore size, fills in lines, skin polisher. Common areas treated are: Face, neck, chest, stretch marks, & stomach.	Minimal redness & swelling for up to 3 days.	This technique is only available at JOLI Medispa. It uses 3 different modalities that have been proven to firm skin.		Up to 3 sessions, 6 weeks apart may be needed to obtain maximum benefit.
<b>Deoxycholic Acid Injection</b> (aka Kybella)	Permanently dissolves fat. Most common areas include chin & Jawline, Jowls, Stomach, Back Fat, Bra Fat, Banana Roll.	Large amount of swelling 2-3 days, with moderate swelling up to 2 weeks.	We use Deoxycholic Acid. This equals better price, more product per treatment, less treatments needed, and better results. Common areas		Best results achieved with 2 treatments 8-10 weeks apart. Occasionally 3 needed to obtain goal and dependent upon amount of fat present.
<b>Micro-Infusion Botox</b> Modalities: Jeaveau, handheld stamping device with 24k ultrafine needles"	Shrink pores, improve texture & tone, glowing complexion, prevent & treat breakouts, rosacea, oily skin.,	Zero Downtime.			
"Micro-Infusion Platelet Rich Plasma (PRP) + Botox (Mini-Vampire Facial) Modalities: Jeaveau combined with PRP, Handheld stamping device with 24k	"Shrink pores, improve texture & tone, glowing complexion, prevent & treat breakouts and rosacea. PRP treats inflammation/dermatitis,	Zero Downtime	Joli Medispa is the only practice on the Northshore combining these modalities.		

ultrafine needles. "	rosacea, pigment, stimulates collagen & elastin, smooths skin. "

## Injectables & Threads

Procedure	Treats	Downtime	Why JOLI Medispa?	Additional Notes
<b>Wrinkle Relaxers</b> Modalities: -Jeaveau -Xeomin	If started before lines appear at rest, Preventative against forehead and crows feet wrinkles. If started after wrinkles are present at rest, prevents wrinkles from getting worse.	None.	Unlike doctor's offices, our injectors focus is aesthetics 100% of the time. This equals better results based off of your personal goals.	We offer a "Botox Club", for which a payment is made monthly towards Botox. Members get 15% off of Zo Skin Health and PCA Products.
<b>Hyaluronic Acid Lip Filler</b> Modalities: -Ravenesse Lips (New brand name for Ravenesse Versa that is specifically for the lips)	Age 20-35: Plumps, enhances lip structure, adds volume.  Age 35 and up: Anti-aging. Restores lost volume and structure. 1 syringe decreases lip age by approximately 10 years (we loose approximately 1 ml of volume every 10 years after age 30).	Swelling 2-3 days. Moderate risk for bruising.	Our standardized technique: the "Jenny Berry Lip Technique" promises no ducked lips that are proportionate to the golden rule of beauty.	If age 45+, may need second syringe 4 months later to reach goal & replace lost volume due to aging
<b>Hyaluronic Acid Filler</b> Modalities: -Juvederm Voluma -Restylane Lyft -Ravenesse Versa	Temporarily adds volume where injected and lasts up to 1 year. *See Filler Packages.	Swelling 2-3 days. Moderate risk for bruising.	*See filler packages.	
<b>Biostimulatory Filler</b> Modalities: -Radiesse (CaHa) -Silhouette Instalift (PLLA/Sculptra)	Replaces Volume by stimulating the production of collagen and elastin production. Lasts 3-5 years. *See Filler Packages.	Swelling 2-3 days. Moderate risk for bruising.	*See Filler Packages	
<b>PDO Thread Brow Lift</b>	Lift brows in a natural patern. Lasts 6-12 months.	None. Low risk for bruising.	The only place on the Northshore performing this procedure daily.	
<b>PDO Thread Fox Eye</b>	Instagram eyebrows. Lasts 6-12 months	None. Low risk for bruising.	The only place on the Northshore performing this procedure daily.	
<b>Silhouette Instalift Thread</b>			*See filler packages.	

Injectables & Threads

(aka PLLA, Sculptra, biostimulatory)	Lifts and sculpts. Lasts up to 5 years. Stimulates strong collagen "barrier reef" preventative against lower face symptoms or prevents lower face symptoms from worsening.	None. Low risk for bruising.			If there is no midface volume loss, or if it has been previously treated with Maleficent Cheek Technique, this procedure can be done solo and will prolong midface volume replacement.

## Lasers & Lights

### Lasers & Lights

Procedure	Treats	Downtime	Why JOLI Medispa?	Cost	Notes
<b>E-Light Laser Treatment</b>  Modalities: Radiofrequency (RF) combined with Intense Pulsed Light (IPL)	Treats: acne, pigmented lesions, blood vessels, rosacea, acne, photodamage, spider veins, and rejuvenates skin. RF: Rejuvenates skin with collagen stimulation and its combination with IPL provides longer lasting results than solo IPL Lasers.	Minimal redness. Pigmented lesions "pepper" and flake off over 2 weeks.	RF is included with your IPL treatment (standard IPL does not have RF). This means better, longer lasting results.		Combine with a vampire facial for enhanced results.
<b>Radiofrequency (RF) with Microneedling</b>  Modalities: Includes Platelet Rich Plasma (PRP) Microneedling + Platelet Rich Fibrin (PRF) Injection	Skin rejuvenation treatment that improves skin texture and tone, to address fine lines and wrinkles, laxity, and acne scars.	Sandpaper texture to skin for less than a week. Mild redness for 1-2 days.	-PRP microneedling, which stimulates up to 10x the collagen than solo RF Microneedling. -PRF Injections, "organic filler" is injected in undereyes (Elsewhere these additions would be up to a \$2000 upcharge.)		-Series of three every 6 weeks recommended for maximal skin tightening.  -Free ZO Skin Health Growth Factor Serum with 1 <sup>st</sup> treatment (while supplies last)
<b>Laser Hair Removal</b>	Treats all skin and hair types except blonde, white, & gray.	None.	The only virtually painless hair removal technology on the Northshore.	See Separate Sheet for Pricing.	2 packages of 3 (total 6 treatments) is generally needed.
